

Theme: CHI Life (Creative, Healthy, Interesting Life)

Outline:

Our software has following goals:

- When a people who seats on a computer for long time, give a relax for body and mind by enjoyable ways, help to planning work.

Our software contains following things:

- Give an advice for health,
- Deliver latest grouped news while working on desk,
- Help to planning work,
- And offers other interesting things.

These components will be more compatible with ourselves and interesting, useful for people.
